We are also a leading tailored debtor finance specialist for general businesses who sell to other businesses on credit terms.

"I have owned and operated a family automotive repair business for over 30 years. Cash flow was a constant challenge as most insurance companies used to take about 90 days to pay.

Then I discovered Oxford Funding in 2004. Dealing with Oxford has allowed my company to grow exponentially. Now my cash flow has never looked better.

I do not have to hire staff to collect and chase money owed, because once my debtors are factored, the money is put into my account on the same day. It is also a lot cheaper than financing an overdraft."
