I've owned and operated a family automotive repair business for over 30 years. Cash flow was a constant challenge as most insurance companies used to take around 90 days.

Then I discovered Oxford Funding in 2004. Dealing with Oxford has allowed my company to grow exponentially. My cash flow has never looked better and it's cheaper than running an overdraft. And I don't have to hire staff to collect and chase money owed, because with Oxford the money is put into my account the same day.

Oxford customer since 2004

I have always found Oxford to be extremely professional in their level of service and commitment to our company. They go above and beyond to meet our needs.

I'd have no hesitation in recommending Oxford to anyone who requires their services.
